ADMISSION we publish to-day with Or CHINESE reference to the admis-TO THE sion of Chinese to the PHILIPPINES. Philippines is somewhat unintelligible in that Goneral Otis, who is at the head of the American Administration in Manila, has

never excluded Chinese from the Philippines. Chinese have been admitted to the islands from the first, although there were certain restrictions as to entrance which had to be complied with under Section 6 of the Act of Congress, approved July 6 1884, and entitled. An act to execute certain Treaty Stipulations relating to Chinese.' According to the treaty between China and the United States certain Chi-Noon.-Meeting of Shareholders of the nese are admitted into the territories of the United States, and Gengral Otis has simply applied the existing treaty regulations Canton Innurance Office, Ltd., at the to the new possessions of the United States. The Chinese who have been freely admitted are what are called the exempt class, i.e., people ongaged in commercial undertakings, teachers, tourists and officials and all coolies who could show that they had had provious residence in the Philippine Islands. Chinese coolie labourers are excluded from the United States by Act of Congress, and have been for years. If this telegram means that the United States is not to apply to the Philippine Islands the existing laws relating to Chinese, then it is clear that Chinese without any restriction whatever are to be admitted into the new possessions of the United States. This situation is, however, very doubtful from the fact that Mr Rounsovelle Wildman, the Consul General at this port, has not been notified of any change in the existing conditions, and as it is at this Consulate that the barrier at first operates it is to be presumed that the State Department would immediately telegraph instructions to re-

move the restrictions. However, should the

telegram be a forecast of the intention of

Government to remove the restrictions, we

She will in all proba- F. P. Musso bility have to go back to Amoy. menetary loss caused by this is vory considerable, as the Ching-no had a large quantity of cargo to take on from here and Penang. The loss of that freight, and the cost of the voyage back to Amoy will run into thousands of pounds. A still more serious feature is the possible ill-behaviour of the coolies, when they find that they are loss of money is strious. The occurrence of a riot on board is far from improbable, and as there are but fourteen Europeans on the vessel, it would seem to be a matter of necessity for the greatest precautions to be observed, even to the extent of putting the coolies below hatches. We are not sure tnat it ought not to be the duty of the Government to put a strong police guard on board the vessel. To inflict loss on a vessel for a breach of the quarantine regulations is one thing: to run the risk of a mating at sea and possible loss of life is a far more serious matter.
